- Dispute settlement in relation to any person engaged in the education business, including disputes over administrative penalties, disputes over the right to organize, disputes over joint school management and labor disputes.

One-Stop service in the education industry

Due to JunHe's in-depth understanding of the education industry and the specific needs of its customers, we can fully understand the intentions of our clients and make accurate legal judgments regarding their business plans. We are aware of the highly sensitive nature of the business needs of the different entities in the industry and can provide advice in many areas such as running a school at different age levels, current trends in the education industry, as well as all related legal issues.

JunHe, founded in Beijing in 1989, is one of the first private partnership law firms in China. Since its establishment, JunHe has grown to be a large and recognized Chinese law firm. The firm has twelve offices around the world and a team comprised of more than a thousand professionals.

The team (JunHe) is very responsive in particular as it relates to last-minute enquiries and time-sensitive matters.

—Chambers Greater China Region

There has been massive reform in the education sector recently, as well as the rapid development of the non-government funded education sector, and we are able to provide up to date investment and financing legal services. We have experience in areas such as establishing modern school systems, routine legal risk management assessment, M&A and restructuring, capital increase and share expansion, and share transfer and listing. We can provide legal services for non-profit public educational institutions, particularly in their restructuring to become profit-making private educational institutions and assist them in the handling of various disputes arising from the preparation and operation of private educational institutions. We can also participate in litigation and arbitration where necessary.
